

JETT PLASMA LIFT MEDICAL
Before & after book

JETT PLASMA LIFT MEDICAL

is first patented DIRECT CURRENT PLASMA discharge generator in the world, made in the Czech Republic (EU). Technology of treatment with JETT PLASMA is based on electric plasma – ionized gas (beam of electrons and ions).

Patented direct current technology creates thin, precise and stable discharge (0,1mm).

You can provide your patients many non-surgical treatments, such as non-invasive blepharoplasty, blepharitis, ectropion, entropion, xanthelasma, and others.

Plasma Pen extension

Applicators for Plasma Pen

Contents

1. Non-invasive blepharoplasty
2. Blepharitis
3. Xanthelasma
4. Ectropion
5. Entropion
